REPORTED FOR THE ALEXANDRIA GAZETTE. Senate, Thursday, April 12.

Mr. Mason moved to take up a resolution offered by him yesterday, providing for a recess of the two Houses of Congress, from the 19th to the 30th instant, so as to allow members to attend the Charleston Conven-

Considerable opposition being manifested to the resolution, Mr. Mason withdrew it. The bill to incorporate the United States Agricultural Society, was taken up and

Passed.
Also, the bill providing for an alteration of the Judges of the Circuit and Criminal Courts of the District. Also, the bill to protect the Potomac fish-

eries within the District of Columbia. The bill to grant \$25,000, for five years, for the use of the Public Schools of the District of Columbia, was taken up. Mr. Clark offered an amendment, that the

appropriation go in part to the education of the colored population of the District of Very much discussion ensued on both

Mr. Mason said it was admitted in the South that it was bad policy to educate ue-groes. In the District of Columbia, slavery

tempts to abolish it have hitherto been resisted; and yet the Senators on the other side wish us to appropriate money for the education of the negro. Mr. Brown said the South only desired the North to let them alone in their rights and property; yot, at this very time, and in this very instance, they are infringing upon them. There are no less than five thousand white children knocking and pleading at

the very door of the Senate to have educa-

or satisfied, because Republican Senators bring in the negro question, which they know is obnoxious to Southern Senators. Mr. Davis said he hardly felt as if he could descend to argue with such men who considered the negro equal with the white man. A bill is introduced here to educate white children, and yet they propose to place the negroes on an equality with these white children. Did Senators from the other side con-

sider the blacks equal to them? Mr. Wilson said he wished the Senator from Mississippi, to understand that this question should be discussed whenever they chose to do so, and without leave from the

Mr. Wilson said he would not be lectured by the Senator from Miss., nor any other Senator, he was tired of having the duelling code continually blustered in the face of his side of the House. . But he had no intention of being uncourteous, or wounding the fee ings of the Senator, and was sorry his remarks were so construed.

Mr. Davis said he had most unhappily construed the remarks of the Senator from Massachusetts; no one could regret personal controversy more than himself, but yet the Senator followed up his remarks by other personal observations which were uncourteous. However, he was not anxious to construe them as such, but was willing to consider them as uttered only in the heat of debate. Adjourned.

House of Representatives. The House passed the Senate bill to settle the title to lands along the boundary of the States of Georgia and Florida.

Mr Gilmer, from the Committee on Territories reported a resolution, as follows: Resolved, That the President of the United States, if not incompatible with the publie interests, communicate to the House all such information as he may have in his possesion as to the existence of any territory of Minnesota; agreed to.

The House in Committee of the Whole was addressed by several gentlemen from the Republican side, after which the committee of sixteen members rose, and the House adjourned.
